

Dear colleagues and friends,

we are excited to announce the first call for abstracts for **The 6th International Symposium on Agricultural Engineering - ISAE 2023**, which will take place **from 19th to 21st October 2023, at the Faculty of Agriculture in Belgrade, Serbia**. In a way, this year we celebrate an anniversary because it has been 10 years since our first conference.

The **ISAE Symposium** is a premier forum for researchers, engineers, and food processing industry professionals to exchange ideas and share the latest advancements in the field of agricultural engineering. The conference is broad in scope and provides a forum for specialists in agricultural engineering from all corners of the globe to present the latest progress and developments in the field. The broad scope brings together a wide range of research areas. This will not only allow the dissemination of the state of the art, but it will serve as a catalyst for discussions on future directions and priorities in these areas. The additional purpose of this conference is to initiate collaboration in research.

The **official web page** of **ISAE 2023** is <http://isae.agrif.bg.ac.rs>

All relevant information regarding the symposium can be found on [official web page](#).

Abstracts of original research papers, case studies, and review articles are welcome. Topics of interest include but are not limited to:

1. Sustainable agriculture and biosystems engineering,
2. Food production and processing,
3. Soil tillage and agroecosystem protection,
4. Economics in agriculture.

Abstract submissions will be accepted until June 1st, 2023. Authors will be notified of acceptance by June 20th, 2023.

We look forward to your participation in this exciting event!

Best regards!

ISAE 2023
